Mountain biking is the ideal way to enjoy the beauty of Carnia, its unspoilt nature and its wonderful views. A dense network of roads and paths makes it possible to get anywhere, from typical villages to the mountain tops. Ancient paths with evocative names meander between silent mountain grasslands, rich in rivers and lakes, until you reach the mountain huts, where one can sample simple and genuine food.

The more experienced and trained can travel through more demanding routes, characterised by impassable slopes and breath-taking descents, such as the famous ascent of Monte Zoncolan, with which the cyclists of the Giro d'Italia have repeatedly grappled.

# LIGNANO AND SURROUNDINGS

[Agriturismo Albafiorita](#) | [Hotel Italia Palace](#) | [Hotel Columbus](#) | [Hotel Adria](#) | [Hotel Alex](#) | [Camping Sabbiadoro](#)

Bike and boat are the perfect couple to discover the tract of the Friuli riviera between the Stella and Tagliamento rivers, also located on the Adriabike track, the cross-border cycling network that connects Ravenna with Kranjska Gora in Slovenia. The bicycle is ideal to explore Lignano and its three different souls: from Sabbiadoro, named for the fine sand of its beach, to the green Lignano Pineta, up to Riviera, which unfurls between the beach and the mouth of the Tagliamento River. The boats instead await you at Marano, to introduce you to the lagoon and its delicate ecosystem protected by the nature reserves of Foce dello Stella and the Valle Canal Novo and for you to admire its casoni, the old fishermen dwellings made of reeds, and only accessible through a dense network of canals.

Between Latisana and Lignano, stop to also taste the aromatic white wines of this area, or the robust reds, which draw their bouquet from the vicinity of the sea and the clay soils that are rich in mineral salts.

# PORDENONE, PIANCAVALLO AND MAGREDI

---

Albergo Diffuso Polcenigo | Hotel Ristorante Prata Verde | Gelindo Dei Magredi Hotel

The Pordenonese rewards bikers with routes that wind along an endless variety of landscapes; get in touch with the area of the Risorgive (springs) and the alluvial plain of the „magredi“, travelling through the lands of mosaic with medieval atmospheres in order to arrive in the upper Piedmont plain at the foot of the Friulian Dolomite amphitheatre, a UNESCO World Heritage Site. Valcellina, a land rich in flavours and culinary specialities, instead offers beautiful mountain paths which allow you to see the Vajont dam and the magical Lake Barcis, but also the woods and meadows that lead to the Nature Reserve of Forra del Cellina.

The most daring are expected at Piancavallo, which in summer divests itself of its ski resort and dons the Bike Funk Park: the ski slopes become perfect trails for mountain biking, and the more athletic can try out the freeride, downhill and Slopestyle, in an area which is fully equipped and organised into various trails.

The Albergo Diffuso Forgaria Monte Prât is in the green Uplands of Monte Prât. It is made up of many stone houses located in villages or isolated in the woods, immersed in a silent and well looked-after environment, with fireplace and/or range, equipped kitchen, outdoor garden, TV SAT and DVD player. There are many trails with CAI signs to follow on MTB or on foot in the surrounding area: the first off-road cycling school in FVG, led by Daniele Pontoni, was started here. It is also possible to visit the Natural Reserve of Cornino Lake, the home of rural country skills, the archaeological park of Castelraimondo and the historical places marked by the first world conflict.
